# GMAT®

The Princeton Review

# We Mean Business.

## Personalized GMAT prep to **raise your stock**

[www.PrincetonReviewME.com](http://www.PrincetonReviewME.com)

# Know what you're up against.

The more familiar you are with the test, the better you'll do. The GMAT is a computer-adaptive test (CAT). That means that your performance on previous questions will determine which questions you'll be asked next. In order to do really well on the GMAT, you need to come out kicking. Your early answers will have a greater impact on your score than those that come toward the end.

# Which Princeton Review prep options is best for you?

## What's tested on the GMAT?
